

SIMPLY SUSTAINABLE

Cleaning Tips From ACI

american cleaning institute®
for better living
www.cleaninginstitute.org

Read labels and use the recommended amount of cleaning product.

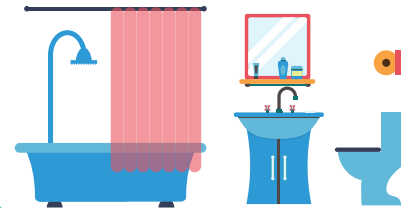

Consider using concentrated or refillable products.

Use cleaning products until they are finished, without wasting any product.

Turn off the water tap between tasks.

Choose high efficiency laundry products for he washers to reduce water and energy use.

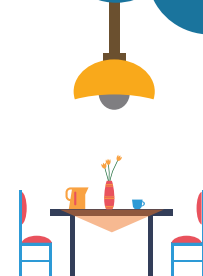

Choose a lower water temperature when possible.

Wash full loads.

Recycle product containers.
