

Commit to Clean: We All Have a Role to Play

Sometimes the smallest habits, like frequent handwashing, can make the biggest impact in keeping us all safe and healthy.

Here's the best way to get rid of those germs!

Wet your hands with clean, running water (warm or cold), turn off the tap, and apply soap.

Lather your hands by rubbing them together with the soap. Be sure to scrub the backs of your hands, between your fingers, and under your nails.

Scrub your hands for at least 20 seconds.

(Tip: Hum the "Happy Birthday" song from beginning to end twice.)

Rinse your hands thoroughly under running water.

Dry with a clean towel or air drier.

Do your part.

Encourage others to clean their hands, too!
